HOPE CHARITABLE TRUST

A RESIDENTIAL HOME FOR MENTALLY ILL ADULTS

We are the Social voluntary organisation serving for non profit making purpose, serving in the field of Mental Health since the year 2014; we got registered under

The Bombay Public Trust Act 1950, in the Vadodara region Gujarat, India with the registration no : E / 7812 / Vadodara dt. 17/7/2014; our aim to provide medical as well as social care services for the mentally ill/ sick, Schizophrenia & Bipolar Adult persons who are in need and senior citizens who are isolated persons and nobody in their family to look after them. they are belonging to various cities/ towns of Gujarat and some of the adults from other States also. We provide individual care to our inmates and resocialise them to live their life with full of happiness and enjoyment.

We look after their safety and security by our team of Trustees who are highly professional and young trustees, serving for the noble cause of the trust. We have educated and well trained staff team who provide their services with their full commitment, love and care for our each inmates.

Hope is an institute in the state of Gujarat that provides required therapies, and services to the needy under one roof by a team of committed, qualified, trained and certified team of professionals.

Our need for the Care Home Project

An appeal to get support for HOPE Inmate beneficiaries for purchase of Land / own building premises – for Care Home.

Presently we are serving 12 inmates and are running our care home on rental basis at Vadodara, that lease is left for next 10 months only.

Therefore we have to arrange permanent shelter home to shift our residents, we have started our efforts and trying to contact our well wishers and donors to get their support for fund for their support.

Our long term vision is to develop our own care home building with latest amenities, we have started our efforts to reach that destination

At present, we have 10 inmates. Now we want to increase another 30 mentally ill adults. We have also registered under The Right of Persons with Disabilities Act, vide 916/19 dt. 28/11/2019 with the Social Defence Dept. Govt. Of Gujarat; Therefore we are initiating a new project for slum children with special needs (Divyang) to expend our service to provide medical and support services in the city of Vadodara that expansion of services will be addition in nos. of beneficiaries in the year 2020 onwards.

We are looking for the Land /building to accommodate our inmates on permanent basis. As Vadodara city is an industrial town so the cost of land / building is very expensive.

At this situation we expect fund support to buy Land for the Trust or a Donor for land who can be helpful for our trust to carry forward our services for the long run This amount is required to get permanent land /building to run our institute for long run to serve our need beneficiaries that is an ultimate goal of our organisation. Therefore we would like to request for the fund support

We have got 12 AA and 80 G certification from the Income Tax Department, GOI. All the donations for our cause may be send eighter by cheque or online bank transfer.

We hope for your call to have personal discussion at your convenient time and place at your organisation.

Let become a part of HOPE's unique journey and explore life's new meaning with our differently abled adults. Your Compassion and Generosity can make a world of difference.

With warm regards,
Hope Charitable Trust
